## Nicholl Presents Academy Plans to Senate Committee

## CURRY AIDS IN RICHMOND'S FIGHT FOR SITE; ANNAPOLIS THOUGHT TO BE SUFFICIENT

(Special to Record-Herald)

WASHINGTON, April 27.—Richmond, Cal., wants the new United States naval academy, should one be established on the Pacific coast.

John H. Nicholl of Richmond, with Representative Curry, today presented the claims of that city for the proposed institution to Secretary Daniels and members of the senate and house naval affairs committees. It is understood Richmond is willing to give a site for the academy at Point Nicholl.

Curry and Nicholl were assured that Richmond would be given consideration should a naval academy be established on the Pacific coast, but the present academy at Annapolis is to be greatly enlarged and the number of cadets doubled. It is therefore hardly probable that another institution will be provided by this congress.

Rebels continue to hold important public buildings in Dublin and street encounters were still in progress, he said.

## KIDS GLAD; CASTOR OIL OUT OF SIGHT

Mothers will more tightly hold their children's noses as they administer that old reliable remedy, castor oil, because this drug is numbered among the "war babies" and instead of costing 85 cents per gallon, as it did two years ago, it now costs $2.15 per gallon.

In fact, it costs a lot more nowdays to keep well than it did before the war. Calomel stock remedy for everything from a headache to appendicitis, will be more limited in use, as it has likewise advanced in price. Instead of costing 62 cents, as it did before the kaiser threw his hat into the ring, it now costs over $4.50 per pound.

## IMPROVEMENT TO COMMENCE IN TWO WEEKS FOLLOWING A CALL FOR BIDS

Disregarding the protests of the San Francisco-Oakland Terminal railways company the state highway commission according to Supervisor Zeb Knott intends to improve that portion of San Pablo avenue from Macdonald avenue to the Alameda county line. The commission will decide today whether the work shall be done by day or contract.

Knott spent all of yesterday in consultation with H. Loder, engineer for the commission who informed the Richmond supervisor that the immediate improvement of the thoroughfare would be commenced.

San Pablo avenue at the present time is almost impassable. Autoists traveling between this city and Oakland, are compelled by the poor condition of the street to cut away from San Pablo avenue near the Stag road house and use side streets.

The improvement of the avenue has been sought for eighteen months by both Knott and Mayor E. J. Garrard. Officials of the San Francisco-Oakland Terminal railways company pleaded lack of finances with which to move their tracks each time the paving matter was discussed.

## CURRY FAVORS MUNITION PLANTS

WASHINGTON, pril 27.—Thirteen men, holding commissions in congress from California voters, have divergent views whether the national legislature is bending properly to preparedness. Some of them believe our armed forces could stand off any enemy likely to appear on the Pacific coast. Others say invasion of California would be easy. There are varying opinions whether California will be adequately protected when appropriations of the present session of congress have been expended.

Several suggestions are advanced for strengthening National defenses in California. One, by Representative Kent, emphasizes the importance of having a coast road, along which troops and guns could be quickly dispatched to any point of danger. Representative Curry would have more munitions and equipment collected and stored on the Pacific coast. Nolan of San Francisco and others think another large mobile army post in California very essential.

## SHOULD BE COMMENDED

Supervisor Zez Knott announces that he has completed arrangements with the state highway commission to construct the state highway along San Pablo avenue from the city limits to the county line and that the work is to begin as soon as the contract can be let and that it will be pushed to completion during the early summer.

If this is true and we believe it to be a fact, Supervisor Knott should receive the commendation of every citizen and taxpayer of Richmond. Without exception, San Pablo avenue is the worst thoroughfare in the state of California and this work should have been done months ago. That it was not done, however, is not the fault of Supervisor Knott, as we understand it, but rather the fault of the street car company, which has persistantly refused to remove its tracks so that the highway commission and the supervisors could place the roadway on either side of the street in accordance with the plans outlined by the engineers. But it is understood that the work is now going ahead regardless of what the street railway company may say or do and that it will be pushed to completion with the utmost expedition.

Let us hope and pray that nothing will intervene to prevent the consummation of the plans and that Richmond may have at least one good outlet for automobile and wagon traffic.

## HOW TO MAKE A MILLION

If anybody wants to make a million dollars, there are plenty of ways to do it. Here are a few suggestions submitted at an ad men's banquet by the director of an eastern advertising company.

The first and most obvious "hunch" is to invent a new automobile fuel cheaper than gasoline. There might even be a billion in that.

The second is to invent a puncture-proof and anti-skid tire. And although the speaker failed to mention it, there are certainly millions waiting for the man who will invent a substitute for rubber.

If none of these suggestions appeals to the would-be-millionaire, he might try making a non-leakable fountain pen.

Or else a shoe that fastens with a couple of snaps instead of laces or buttons.

Or else a quickly adjustable corset that doesn't need lacing.

A method of buttoning the wife's waist behind without calling on Friend Husband.

Or a moth-proof wardrobe for summer homes.

Or an automatic rug-beater, or a window screen that rolls up like a window shade, or a non-buttoning and non-choking men's collar, or a receptacle containing iodine, the best of antiseptic, with means of applying it quickly and removing the stains quickly.

Take your choice—they're all simple and apparently sound propositions.

## SOCIETY MUST PAY

According to the Detroit News, somebody has estimated that $840 is the lowest income on which a family of five can live in decency in New York or any of the large cities of the United States.

The wages paid by New York City to laborers is $480 a year. This is $360 below the mark. But is it saved? It is not. There is a law, a natural social law, that when society refuses to pay the price of decency and justice it pays the price of indecency and injustice—and the latter is the heavier.

Take the case of New York. The worker who earns $360 less than a living wage still lives, but he takes the difference—and more—out of the community. When his children are sick the public doctor attends them. When his child is injured, a public hospital cares for it at public expense. When work is not to be had, public funds buy the family bread and fuel.

When the moral fruits of such a life manifest themselves in crime, society pays the policeman and supports the penitentiary by which legal expiation is made. And when the wretched parents die, society pays for the funerals and supports the orphans. This is not to mention the moral and physical menace to the community which such an uncared for family may become.

Count these public "charities" and it becomes clear that the $360 which New York saves on each of its laborers is taken out of New York's city treasury and orderliness and health—and more, too.

Laws of society are like any other laws of the material universe; they are inevitable. Society cannot break them, but society can bruise itself against them. And that is what society has been doing. With this consolation, however, that every bruise society inflicts upon itself awakens its intelligence and concern in that particular direction.

The wheat crop of 1915 was an exceptionally good one, the total world production being 4,000,000,000 bushels, an increase of 800,000,000 bushels over the production of 1914, according to preliminary figures given in the bulletin of the International Institute of Agriculture in Rome. More than 90 per cent of the 1915 wheat crop, or 3,765,000,000 bushels was produced in the Northern Hemisphere, while 325,000,000 bushels came from the Southern Hemisphere.

## 88,240,600 BBLS OF OIL PRODUCED

California produced 88,240,600 barrels of crude oil last year, according to sworn statements made to State Mineralogist Fletcher Hamilton by all the known 103 producers.

One-third of the amount was produced by the five large refining and marketing companies—Union, Associated, Standard, Shell and Independent Producers' agency.

One-sixth, 13,700,000 barrels, was produced by consuming corporations, such as railroads which use oil in their own service.

The other fifty per cent was the output of small producers and comparatively small concerns that usually sell at the well.

Compilation of the figures received from all the oil districts of the State have been going on for weeks under direction of R. P. McLaughlin, state oil and gas supervisor, who yesterday commented upon them thus:

These figures doubtless are the most accurate ever obtained, but they differ very little from those given to the public in advance by two corporations—Standard Oil and the Independent agency — which thereby performed a public service, the value of which should be more generally recognized.

The oil came from eight counties, 53,000,000 barrels being from Kern county's 3,873 producing wells. Fresno county, with 830 wells, produced 13,500,000 barrels of oil last year.

Orange county, with only half as many wells, was only one million barrels behind.

Santa Barbara county, with almost as many wells as Orange county, did not produce half so much oil—only 5,500,000 barrels. But Los Angeles county, with 25 per cent more wells—564—produced only half as much oil as Santa Barbara county. Ventura county's average was still lower, its 318 wells producing less than a million barrels.

Seven wells in Santa Clara county produced 16,617 barrels during the year, and three wells in San Luis Obispo county produced 10,000 barrels.

The natural gas marketed amounted to nearly 15,000,000,000 cubic feet, of which more than 90 per cent came from Kern county.

Upon the enlargement of its force of specially trained engineers in the field, the state mining bureau will conduct a more detailed investigation of natural gas production. This splendid natural resource too frequently is wasted.

# ATTORNEYS WRANGLE IN SLAUGHTER JURY

OROVILLE, April 27.—With Guy R. Kennedy and William H. Schooler, attorneys for the defense in the second trial of Rev. Madison Slaughter, charged with wronging 15-year-old Gertrude Lamson, fighting every inch of the way, the examination of prospective jurymen continued today.

Out of six jurors examined up to noon today two were passed temporarily and four men were excused. Those who were passed temporarily are Daniel Zink of Berry Creek, and J. F. Hollingsworth of Chico.

It was a wrangle between the defending attorneys, the prosecuting attorneys and the court from the moment the court opened. Even after a conversation had been had between the attorneys and the court regarding questions which might be asked the jurors, Attorney Schooler continually jumped up, addressed the court and arguing on the competency of certain questions.

Finally the ire of the court was aroused and Schooler was told to sit down and desist in his arguments or he would be declared in contempt.

The examination of Thomas S. Darby, the first venireman questioned this morning, dragged along slowly. The examination took just one hour, after which he was finally excused. Darby stated he had formed a strong opinion as to the guilt of the defendant.

# WHY NOT GET YOUR DRESS THIS MONTH INSTEAD OF NEXT?

"You'll have it in the end any way, Myra, so why don't you buy it tomorrow and wear it a month sooner?"

What a question! Why, you know well enough, Helen, that I have just about half the price of a new dress, and not a cent more. How on earth could I get one tomorrow?"

"At CHERRY'S, of course—ON WEEKLY OR MONTHLY INSTALLMENTS! It won't cost you a single bit more, and think of wearing it all the while you're paying for it!

"And let me tell you, Myra, that you could hunt the city through and not find a prettier variety of spring and summer dresses than CHERRY'S are showing."

"I'll go and see them tomorrow, Helen. What's that address?"

# SANTA FE TO CONTEND FOR VALLEY BUSINESS

The Santa Fe railway will become a more active contender for Sacramento valley business May 1. At the same time an impetus will be given to the business of the San Francisco jobber in that field.

By a triffic agreement with the Oakland, Antioch and Eastern and the Northern Electric railroads, that becomes effective on that date, a new freight service that will be run on virtually an express schedule daily, except Sunday, will be established.

Carloads of goods from the east will be switched from the Santa Fe to one of the electric lines at Bay Point under the new arrangement.

# BRENTWOOD TO HAVE MANY NEW BUILDINGS

The Security Realty Co., Monadnock building, San Francisco, plans the erection of a large number of buildings in Brentwood, Contra Costa county, they having commissioned Architects Richardson & Burrell, Albany building, Oakland, to prepare plans for the work.

The structures will consist of a number of ranch houses, a large administration building and a number of residences. Plans for the administration building, two residences, one implement barn, a garage, water system and irrigation plants have already been completed and the owners are now completing the details for starting the work. The plans for the ranch buildings will be placed under way immediately.

According to Architect Richardson the work will cost in the neighborhood of $250,000. All the work will be done under the day labor system.

May 19—Informal dancing party of Miramar Chapter, O. E. S., East Shore park.

June 3—Yama yama party and dance by the Young Ladies' Institute at Pythian hall.

and will be rushed through to their destinations in a day's time. Among the communities that will benefit by this agreement will be Marysville, Yuba City, Colusa, Oroville, Chico and Woodland.

There have been many rumors in the past of the Santa Fe's buying or building into the Sacramento valley, but this traffic deal is said by railroad men to place that line in active competition with the Southern Pacific and Western Pacific as effectually as though branches had been built through the northern valley.

**MAY PROVE FATAL**

When Will Richmond People Learn the Importance of It?

Backache is only a simple thing at first;

But if you find 'tis from the kidneys;

That serious kidney troubles may follow;

That dropsy or Bright's disease may be the fatal end,

You will be glad to know the following experience.

'Tis the statement of a Richmond citizen.

Philomena M. Brier, 511 Ninth St., Richmond, says: "Dropsy, which was shown by swellings of my limbs, shortness of breath and fluttering of my heart was my most serious trouble. I suffered from severe attacks of backache, my head ached often and I had dizzy spells and a tired, worn-out feeling. Since I heard about Doan's Kidney Pills, I have used them whenever these attacks have come on me and in a short time they have fixed me up all right."

Price 50¢, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Philomena Brier had. Foster-Milburn Co., Props., Buffalo, N. Y.

# NOTES FROM THE PLAYHOUSES

**PANTAGES THEATRE (Oakland)**

Mme. Makarenko, the famous dancing star, and her remarkable spectacle, "The Dream of the Orient," continue to draw record crowds at the Oakland Pantages this week. This act is one of the most spectacular offerings ever seen in vaudeville in the west, being a gorgeous maze of color, light, and music. The offering has been a sensation wherever presented. Rare Oriental silks, equisitely worked, and curiosities worth thousands of dollars are in the lavish stage setting, and special music, composed for the famous star in Russia, as well as a number of classical and popular offerings, are on the musical program. A clever corps de ballet assists in the successful production.

The laughing hit of the week is the offering of the De Michele Brothers, musical wizards, who make laughs together with their harmony. This act is a scream from start to finish. The violinist, a wonderful comedian, plays exquisitely—with a bored expression—almost "Dopey"—that brings down the house. This is no slapstick humor—just a subtle touch that makes laugh after laugh, and is really funner, as actual laughs, this week at the Pantages testify, than the livlier work of less talented comedians. It is humor reduced to its cleverest form, and cannot be described. It can only be laughed at.

The dancing LaVars are seen in one of the most striking modern dance offerings, coupled with stage dancing and special creations ever seen on the Pantages circuit. This is one of the biggest of eastern vaudeville hits, and is a notable "Big Time" act. Edward Farrell and a clever company offer an uproarious farce in "After the Wedding," and one that will long be remembered with new laughs for every memory. The Australian Creighton have a startling combination of acrobatics and juggling, and Faber and Waters appear in a lively comedy melange.

"The Iron Claw" is the film feature.

Who has not heard of "Little Lord Roberts," greatest of midget comedians, the smallest Elk in the world, and the big headline act of vaudeville the world over. He comes next week to the Pantages. Lord Roberts is not four feet high, but his comedy ability is as big as a mountain. An artist to his finger tips, he bases his reputation not on the fact that he is small, or a curiosity, but on the fact that he is a real comedian, and his clever act is hailed with joy everywhere. Lord Roberts will offer the best act he has ever presented next week, says so himself, and will be the talk of the town. "The Dream Pirates," a big musical production and several other big features are on next week at the Pantages.

# MONSTER CROWD AT PACIFIC MOTOR POWER SHOW

OAKLAND, April 27.—The greatest crowd ever to attend an opening night in Oakland thronged the municipal auditorium last night at the great Pacific coast motor power and automobile show, the first exposition of the kind ever to be given in the west. More than 50,000 square feet of floor space are covered by the hundreds of the exhibits and among the automobile features, covering 30,000 square feet, are the famous "Pathfinder" car, which has covered more than 250,000 miles in the United States in the interests of good roads; the golden Studebaker chassis, the greatest drawing card in the big eastern automobile shows and shown for the first time in the west; the auto compartment, which is the invention of J. H. Dennison Cook, and nearly a hundred of the newest models of every prominent make of automobile. The show is the most complete ever shown in the west.

The exposition was formally opened with a telegram from President Wilson. A long telegram of congratulation from Henry B. Joy, president of the National Lincoln Highway association, was also read. A feature of the evening and a feature which will be included in the big amusement program which will be given throughout the show was the singing of "The Motor Show," written specially for the power show.

The big exposition closes Saturday, May 6th. Among the important exhibits is that of the Sullivan Tractor company of Oakland. Special accommodations for out of town visitors are provided. The State Automobile association will hold its annual convention on Friday and Saturday of this week.

# LOVE DRAMA IS SHOWING AT RICHMOND

Genevieve Hamper, the beautiful young actress who appears as costar with the famous Robert B. Mantell in "The Blindness of Devotion," the latest William Fox feature photoplay which intrduces to the shadow stage these two most eminent of dramatic artists, denies that it was her singular good fortune that made her love the stage; but admits it was her love of the stage that brought her good fortune.

"I was always crazy about the stage," declared Miss Hamper. "My father, mother and brothers used to tease me about my dramatic craze and call me Sarah Bernhardt or Maude Adams. However, I persisted in my ideals and while I never attended a dramatic school I studied singing to improve my elocutionary powers. I made my stage debut, as I am now making my first screen appearance, with Mr. Mantell. This was at the Garrick theater in New York. Several Detroit people were in the audience and I'll admit I was terribly nervous; but I managed to live through the ordeal. Then the leading woman, whom I was understudying, was taken ill and I was thrust into the part without warning. From that day on I have found that the recipe for success is hard work. I am delighted that now, through the medium of the screen under Mr. William Fox's management, my friends who were so appreciative of my efforts on the stage can see me on the screen."

"The Blindness of Devotion" will be shown at the Richmond theater this evening. The Pathe News is also on the program as an American comedy entitled, "Luke Foils the Villian."

# QUIT MEAT WHEN KIDNEYS BOTHER

**Take a glass of Salts before breakfast if your Back hurts or Bladder is troubling you.**

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

# AT THE REGENT THEATRE

Danny Canavan, chief character in "The Danger Signal" a George Kleine master photodrama to be shown at the Regent theater tonight, has an astounding career, rising from obscurity to power, social position and great political influence through a most remarkable chain of circumstances beginning when he, as a laborer in a subway excavation in New York, waves a red flag warning traffic of an impending explosion of dynamite under ground. He is then a weak, cringing, vacillating, brow-beaten man, but a lightning change sweeps over him as he witnesses the obedience paid to the red flag. It turns his mind to a new channel of though and in an hour Danny Canavan, transformed into a dominating, virile man begins a triumphal career that smashes down all barriers no matter what they are, until he attains a great ambition. Love and romance are closely intertwined in "The Danger Signal," and it appeals as strongly to women as it does to men. Arthur Hoops has the title role and displays masterful, dramatic talent as well as an especial adaptability for work before the screen. The same may be said of Ruby Hoffman, the leading woman. "The Danger Signal" is an adaptation from Rupert Hughes' story "Canavan, The Man Who had His Day," which, when it appeared in the Saturday Evening Post, created decided interest. It is released through Kleine-Edison feature service. The Hearst-Vitagraph News and a good comedy will also be shown.
